S I N C E

Whoever has the VENEREAL DISTEMPER
Either has it but slightly in its 1st Degree; Or else they
have it more Virulent in its 2d, or 3d Degree.—And again,

Since the *First* Degree is Cured with a little Matter, and
the *Second*, and *Third* Degrees require something more:

Therefore,

That Persons may rightly know to *Which* of these Degrees
their own Case belongs, and what will best Cure it:

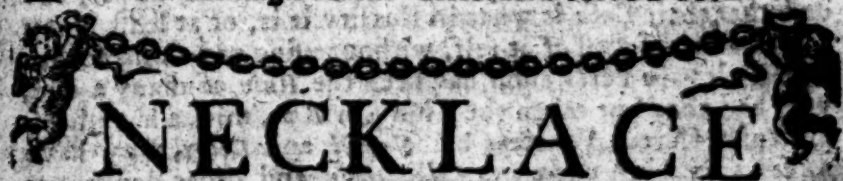

All these Articles (with all the Circumstances of a *Gleet*)
are fully and *Practically* explained in this SCHEME.

Of the Venereal or Secret DISEASE.

WHEN a Person has unhappily contracted *This* Distemper, it commonly *First* shews it self by a Redness, Heat, Inflammation, Soreness, Swelling, and Uneasiness of the *Part* that took and received the *Infection*.

In *Some* it begins with an *unusual* kind of Itching, and as it were a Glowing, and Throbbing of the *Part*, with little Twitchings, Tinglings, Dartings, & Shootings in the *Passage*.

In others, Only a little Red Spot, Wheal, or Pimple will appear on the *Part* like a Flea-Bite or Meazle, which growing *Sore*, becomes what is afterwards called a *Shancere*.

These *Symptoms* are soon followed by a Dripping of Matter from the *Passage*, which turns afterwards of a Yellowish or Greenish Colour, as will appear by the Linnen.

And which Matter drying on the Orifice of the *Passage*, Gums it up, and divides the Urine into a double Stream, and is commonly attended with a Heat & Smarting of Urine.

These are the usual *Signs* and *Symptoms* of the Disease in *Either* Sex, whilst it is in it's *FIRST* Stage, or Degree:

And which *Symptoms* are more or less *Severe*, according to the *Degree* of *Infection* receiv'd, there being a Difference between *Burning one's Finger* with the Snuff of a Candle, and a *Red Hot Iron*: For which Reason, Some Persons may find no great Hurt for some *Time* after having received the Injury, when others may be severely Pepper'd *from the Beginning*.

Whenever therefore any Person upon *Comparing* their Case with *This Practical ACCOUNT* or *SCHEME* of the Disease, shall find in *Themselves* any of these *Symptoms*, they ought soon to have Recourse to some *Remedy*, and harbour no Doubt of their Case, as too many to their *Ruin* too long do.

Who thro' an Unwillingness to be in such a Pickle, (delirious as most are, *to put off the Evil Day*) will hardly be perswaded that their Case is what in Reality it is, or at least fancy that it will wear off of it self, without using any thing for it:

Which vain Perswasion has been the *Rule* of many a one, who had they but taken the Thing in *Time*, might have been presently Cured, Whereas by *Neglect* and *Delay*, they have afterwards been put upon *Salivations*, and other dangerous *Mercurial Methods* of Cure, & perhaps scarce ever *Thoroughly* well Cured at last: And this for oftentimes only a *slight* Injury, which might at *First* have been Easily Cured.

Whereas, the longer this Distemper is let run on unregarded, the deeper it always Rivers it self, and the worse it grows:

It being the Property of this Disease, that when it *lies hid*, it *lies not idle*, but will appear sooner or later, when Persons least expect it: Which makes it not at all safe to neglect the least apprehensions of it, but to have Recourse in time to some Safe Remedy for a Cure.

A SHORT WAY AT ONCE, with the Cure of this FIRST Degree of the Secret Disease,

THE Symptoms of this FIRST Stage, or Degree of the Venereal Distemper being those Uneasinesses of that Outward Part of the Body that First Took, & received the Infection just now described, By consequence.

This Distemper in this its First Stage, is no more than *Ameer Local Injury, done to That O N E Part of the Body only, that First received the Infection, without any Communication at all as yet with the Blood, or other Parts. And therefore*

The readiest way to Cure it, is to Use some proper Remedy to that Part it self, to Take the Infection away from it.

Just as when a Person has got a sore Finger, or a Broken Shin, the Using of some Proper Remedy to the Place it self that is Hurt, is the Only Immediate, & Best Way to Cure it.

So that the Case being the same in our present Question, the Best Thing entirely, to make a total Riddance of the Disease At Once, whilst it is thus in it's First Degree, is a certain Chymical Lotion, which, without any thing taken at the Mouth, or any Difficulty, or Uneasiness, immediately Frees the Person from the Venereal Infection, by taking it away from the Part it self that received it, and this, by only Washing the Part With, and Soaking it IN this Lotion.

So that by this easy Remedy, Persons will be cured & well, as if no such thing had been: And this without any Confinement at Home, or Hindrance from any Business, or the Knowledge of any one, 'tis so Easy and ready a Cure.

This Lotion being that Method of Cure for this Distemper, which Dr. Cockburn of the R. Society, and College of Physicians of London, has writ a whole Treatise in Commendation of, Entitled, *The Symptoms, Nature, Cause, & Cure of a Gonorrhœa*, Printed for G. Strahan in Cornhil. and is well worth every Venereal Patients perusal for Instruction.

In which Treatise the Dr speaks thus in Commendation of it.

"A Gonorrhœa is thus Sooner, and far Better Cured by this Lotion, than any other Way, And the Greatest Heat of Urine is presently taken off by it, which often resists the best Medicines. The Safety also of this Lotion is greater than can be in any other Method. And therefore, as there is no Competition between this Method and others, our Endeavours ought ALL to be employed about it; the very worst Effects of a Gonorrhœa, being Cured by it in the Shortest Time, without any Pain, & with the greatest Certainty. Thus Dr Cockburn.

"The Practice says Dr. Quincy, does not fall so much into the Use of this Lotion, as it justly deserves, for fear of making Too Short, and Too Easy Cures. Dispens. Par. 4. 2.

Of the Easy and Ready Use of this Lotion

IF the Part it self that took the Infection is *Sore, Hot, Swell'd, Red, and Inflam'd*, with any Smarting of *Urine*, or Dripping, & a Soreness at the End of it, &c.

Or if it has any little Blisters, or Pimples upon it, — Then Pour out into a Tea Cup a Spoonful or two of this Lotion, & put the Part into the Cup, and *Hold it in it*, and let the Fore-skin and the End of it *Lie* and *Soak* a Minute or 2 in it, to SOAK the Venereal Infection OUT of it, and thereby put an immediate STOP to the Infection's ever getting farther into the Body, and *Poising* the Patient :

And then WASH the whole Part it self with the Lotion Liquor, according to the Directions that are with the Lotion.

This WASHING and *Soaking* thus the Part Cures it, & immediately takes away the Running, & Heat of *Urine*.

So that Persons will find such a comfortable sudden Change and Alteration in themselves, by being rendered so soon Easy by this Lotion, altho before in the most uneasy Condition imaginable, that they will be surpris'd at it.

Also, If your Case be even the *Second* or *Third Stage* or Degree of the Distemper, and that you have any of those troublesome Sores on the Part, called *Shancres*, which often prove Ugly things, if not remedied in time :

Or if the Foreskin is *Sore, swell'd*, and cant be moved.

Or if you have a *Cordée*, Then for any of these *Symptoms*,

Besides the taking of any Physick at the Mouth, from any Doctor whatsoever, *Wash* the *Shancres* & sore Places with this Lotion, & Soak the End of the Part in a Tea Cup full of it, to *Soak* the Infection out of the *Shancres*, & take the *Cordée* away.

Thus, the Use of this Lotion being with the utmost Privacy, and SOON DONE, it can never betray a Person's Condition, if they will but be true to themselves :

Whereas other Methods are troublesome, keep the Cure long in Hand, & betrays the Person into the Bargain.

And How this Lotion Liquor acts on the Venereal Infection, may be made clear from the following Example.

Suppose a Person so Stung by some Venomous Creature in the Foot, that the Ankle, Instup, Heel, & Toes swell, are inflamed, hot, angry, red, sore, & very painful.

In this Case what does a prudent Physician do? He immediately prescribes a proper Liquor to be put into a *Basin*, & orders the Stung Foot to be well *Soaked* in it, to Soak the Venom out of it, & to Cure it. The Case is the same here.

Because SOAKING, and WASHING the Part that took the Infection with this peculiar Lotion Liquor, has the same Effect in *Soaking* the Venereal Infection OUT of it, & Freeing the Person from it. The easy Use then of this Lotion is recommended to all Persons, altho under the Hands of any Physician whatsoever.

For

For, let them take whatever Physick ANY Physician or Surgeon may give them, if they do but use this Lotion whilst they take their other Physick, (and which can never interfere with any Physick they can take from *Any One*, this Lotion not being to be taken at all Inwardly) they will be Cured in above *As soon again*, as they can ever possibly be, by only their other Physick alone, without this Lotion.

If therefore any Person compares the Fatigue of a long tedious Cure without this Lotion, with the Expedition & Ease with which this Lotion performs a Cure, they must lay aside all Reason, if they do not out of Hand make Use of it.

This most Incomparable LOTION, and Easy Cure AT ONCE, of this most wretched Distemper, is Sealed up with Directions in *English* and *French*, Price 7 s. 6 d.

But, For those who cannot FETCH these things, Every Reader is to take Notice.-That

B *T Reason of the very great Success of, & Demand that there is from all Parts for this Famous LOTION, and the other Remedies in this Scheme Any Person who may live any where in, or about London, Or some Distance from London, may the more Easily come by them,*

A TRAVELLING SERVANT is employed on Purpose, to Carry any of them Privately to whoever WRITES for them, either for themselves, or for some Acquaintance.

If they send but the least Note by the *Peny Post Directed Thus,*

T O Mr. BRADSHAW at the *Golden Key*, near *Russell-Street-End*, *St. Giles's* in the *Fields*, LONDON.

So that as soon as ever the *Post-Man* brings your Letter,

You shall Presently have what you Write for BROUGHT (*Carriage Free*) to you, and with the utmost Privacy, if you live any where not exceeding 12 Miles out of *London*, by this Servant, who is employ'd on purpose to go with this Lotion or the Specifick, or any other of the following Remedies, any Journey not exceeding 12 Miles out of *London*. And your Charge of *Postage* will be Repaid you again.

Or what you Write for, shall be *Left*, till called for (if you like it so better) at any House Privately for you, under any Feigned Name, as you shall order in your Letter.

This SERVANT having all these Remedies ready always by him at his House the *Golden Key* as above, That

Upon the Receipt of any Letter, he may immediately DISPATCH AWAY to any Person what shall be Writ for.

And thus Persons need be at no farther Trouble, but only to direct a Note as above, and what they Write for, will be BROUGHT to them.

also, For the immediate Conveniency of Persons FAR
OFF any where in the Country.

Upon the Receipt of any Letter to him by the General Post
from any County of England, Wales, Scotland, Ireland, &c.

He will deliver to any Carrier, or Stage-Coachman :

Or to any Master of a Ship, Sloop, Hoy, or other Vessel,

Or to any other Person, whatever you write to him for, so
PRIVATELY Put up, that no One can know what it is:

So that by thus Writing by the POST to this Person, any
one in the Country FAR FROM LONDON, may with
all Ease, Expedition, & Privacy come by any of these Things.

And so Cure themselves of any Degree of the Venereal
Distemper, in any private Family in the Country, without
making your Case known, or being suspected by any one.

THE Reason for this Notice of Writing by the POST is,
Because Many Persons in the Out-Parts of London, or
some Miles off in Middlesex, Kent, Essex, or Surrey, have
not the Convenience of Sending for, or DON'T CARE to
Fetch any of the Things in this Book themselves: Therefore, Since
sending a little Note by the POST, is so Easy to every Body,
This Person is appointed on Purpose thus to SUPPLY Persons.

And is found to be so very Easy and convenient a
Way of Persons coming by any of these things, that it is every
Day so more and more liked, that LETTERS increase
Daily from all Parts to the above mentioned R. BRADSHAW
to have these things BROUGHT thus Privately to them, be-
ing much pleased with so very Easy a Way of coming by them.

Again.—Many a Person living out of London, who may
be in PRESENT WANT of either this Lotion, or the fol-
lowing Specifick, &c. and for want of a Present Convenience
of coming by them, may say to themselves, that after a
while I shall be in London, and Then I'll have it, &c.

But because each Day's Delay makes their Distemper on-
ly become worse, Therefore Here is an Easy and Conveni-
ent Way Put into their Hands, of coming by any of these
Remedies in A FEW HOURS, and in full as Private a man-
ner as if they Fetcht it themselves, and this by only Writ-
ing by the Penny Post as above ordered, and it will be pre-
sently BROUGHT to them, or Left any where for them.

Or if they live any where FAR OFF in the Country, if
they do but Write the least Note by the General Post, What
they write for, shall be immediately Packt up in a little
Box, and sent to them by any Carrier, or Stage Coach
Man they shall appoint in their Letter, Carriage Free.

By which way, they will Come by what they write for, as
safely, as if it was to be had in the Country Town where
they Live, and perhaps much more Privately. The

The Cure of the SECOND Degree of the Distemper

IF the Distemper is *Let Alone* without *Using Means* for a Cure in it's *First Stage* or Degree, Then *Other Symptoms* will come on *Thick and Fast* upon the Person: The *Part* grows *Sorer*, and when the Person is warm in Bed, is violently drawn down with a *Cordée*.

In many Persons, a *Foul Matter* will gather underneath the *Fore-skin*, which *Fretting* the *Part*, makes it *Sore*.

And the *Dripping* of *foul Matter*, and *Heat* only and *Smarting* of *Urins*, is now a perfect *Running*, and *A Scalding*.

In some Persons, one or both *Testicles* will grow *sores*, *painful*, *hard*, *swell'd*, & very *Uneasy*, — Now

To Cure (or prevent if coming on) these Symptoms, which are the proper Signs of the 2d. Stage of the Distemper,

Besides the foregoing Lotion, there must be an Addition to it of the famous *Specifick Remedy*, to *Clear* the Body of the *Venereal Infection*, which the Great Dr. *Chamberlen* so much esteemed and Recommended to all that enquired of him about it, as he did, which was on the following occasion.

When this *Specifick Remedy* was First Published in London in the Year 1713. Numbers of Gentlemen and others Bought of it, & who finding themselves Cured by it, recommended it to their Acquaintance under the same unhappy Circumstances, and who experiencing the same happy effect from it, recommended it also to others:

This coming to the Ears of Dr. *Chamberlen*, moved his Curiosity to Buy the *Remedy*, which he did by sending his Servant with a *Guinea* for it sealed up with the Lotion &c.

And having at that time some deplorable *Venereal Patients*, he was pleased to try the *Remedy* upon them, the Success of which made the Dr. send his Servant for more of it, and withal writ to the Author to acquaint him with it.

The Author upon this waited on the Dr. and communicated to him the Prescription of the *Remedy*, upon which the Doctor was pleased to fall into the Opinion, that the true *Specifick* for this Distemper, was now happily Hit upon.

And therefore upon his having thus experienced this Wonderful *Specifick Remedy*, & the *Constitution Elixir*, &c. he was pleased to express his Value of them, and also of the famous *Anodyne Necklace* for Children's Teeth, in the following Approbation under his own Hand.

I Hereby Approve of, and Recommend for Children's Teeth, the *Anodyne Necklace*, as I do also the Great *Venereal Specifick Remedy*, and *Elixir* for the Secret Disease, and Broken Constitutions in the Practical Scheme, all which I know from my own Experience of them to be most excellent things. Therefore I caution all Persons to be ware of all Counterfeits.

R. Chamberlen. M. D.

But to return to our Subject of this Specifick Remedy:
It carries out of the Body *Mercury*, and thereby Relieves
those who have been in bad Hands in Former Cures

It carries off also in their Infancy, those Venereal Swellings which otherwise would break, called Buboës, & which if once Broke, will most certainly betray your Condition.

Whereas this Remedy saves all this Trouble, and sets all to rights again, making the Persons easy, & well. So that

The Great convenience of this *Specifick*, and *Lotion* is, that Persons may Cure themselves with them without making their Case known to, or being even suspected by any one.

This Great SPECIFICK Remedy is Sealed up with Directions in *English* and *French*, Price by it self *Half a Guinea*.

And if any one would inform themselves farther concerning their Condition, at the TWO following Places, viz.

Up One Pair of Stairs, at the *Anodyne Necklace* against *Doreux-Court* between *Temple-Bar* & *St. Clement's Church*.

And by (the Author's Servant) *R. Bradshaw* at his House the *Golden Key* as above in the 5th Page, is Given *Gratis*.

A SECOND PART to this SCHEME

Being a Continuation of these Subjects, viz.

OF THE

SECRET DISEASE, and A GLEET.

which is a Book calculated farther to inform all Venereal Patients about their Condition, & to resolve their Doubts

O R,

W Henever the Author's Servant, (the abovementioned *R. BRADSHAW*) Brings any thing in this Scheme to any one that Writes to him either any where in or about *London*, or not exceeding 12 Miles from *London*,

He will at the same time (if they desire it) Bring them one of these SECOND PARTS to this Scheme along with him; and also Bring them one of the Books entituled *Eronania* on the Crime of Self Defilement, &c. mentioned hereafter in the 12th Page, if they desire it.

Notice is hereby given, that

ROBERT PAYNE, Son to Mr. *Jer. Payne* late of *Pope's Head Alley*, *Cornhill* (who for several Years Sold the Remedies in this Scheme) keeps Now the Cane Shop in *Castle-Ally Passage* into the *Royal Exchange*, where any of the things in this SCHEME are always to be had.

The.

The Cure of the 3d and Last Degree of the Distemper.

WHat has been HITHERTO said in this Scheme, regards the Venereal Distemper in its *First* and *Second* Stages or Degrees, commonly called *A Clap*, before it comes to that miserable Degree of it, called the *Pox*.

But if thro Neglect and Delay in getting a Cure of the Distemper, whilst it was in its *First* and *Second* Degrees,

Or from having been mismanaged in any former Cure, the Infection has got into the BLOOD, & which is known by various Pains, Aches, *Spots*, *Scabs*, *Blotches*, & breakings out about the Body, with restless uneasy Nights, &c. which are shrew'd Symptoms of the THIRD & LAST Degree of the Disease, & that it approaches towards the Pox:—Then.

Besides the foregoing Lotion & Specifick Remedy, which are for the *First* and *Second* Degrees of the Distemper,

The Person shou'd take a certain little Grain of a particular Blood-Cleansing Powder, to take the Pocky Infection immediately out of the Blood, that Then the Specifick may Carry it off.

This little Grain of Powder is no more to be taken, than will lie on a Silver Penny, and has nothing at all of any Mercury in it, nor no more Tast than a Crum of Bread.

And is such a Cure of this Distemper, that it has been surprising to see Persons almost Ruined with it, looking like Death, with Pains & Breakings-out in their Body, & even their Nose in Danger, cured so easily by this Method.

This Blood-Cleansing Grain of Powder may be had separate by it self, Price 3s. 6d. Sealed up with its own Directions.

But as The Lotion, The Specifick Remedy, and this Powder, make up the Whole Cure of this Disease, when very BAD:

Therefore they are also all Sealed up in One Pocket Parcel together, With this Title Pasted on the Parcel,

The Whole CURE together

OF THE

SECRET DISEASE,

Belonging to the Practicall Scheme.

With DIRECTIONS in ENGLISH and FRENCH.

Price A GUINEA.

And are thus commodiously Sealed up in one little Pocket Parcel together, that the Whole Cure may be Privately bought, & carried away in a Persons Pocket to any (even remote) place, There to Cure themselves with, without any suspicion.

If therefore we compare the Privacy, and Ease of this Guinea Cure, to the Trouble in being Cured by the Common Methods, the Perfection of This will easily appear be-
the Blind Infatuation of others.

AN

An Application of what has been hitherto said, to every ones Case in particular.

AL L Persons who have the Venereal Distemper upon them, have it in some ONE of the *Three* foregoing Stages or Degrees: And in which of them it is, any one may easily know, by seeing whether the Uneasinesses they complain of, be the same with those which are above described as belonging to the FIRST, SECOND, or THIRD Stages or Degrees of the Distemper. — So that

If they find that their Case is only the *First* Stage, and which is usually called a *Simple Gonorrhœa*, or *Clap*, then they need only to Use the abovementioned Lotion to be Cured, without their taking any thing in at the *Mouth*.

But if their Case is the *Second* Degree of the Disease, which altho called also a *Clap*, yet it is with the Addition of the Word *Virulent* to it, A *Virulent Clap* being where the *Running* is pretty much in Quantity, & become foul, & discoloured, and the Urine scalds & smart^s MUCH as it comes away, & is also accompanied with the other Symptoms above described as belonging to the *Second* Stage: — Then in this Case,

Besides a Person's *Using* the Lotion, they ought for a Speedy Cure, to take a Dose or two of the *Specifick Remedy* for the Reasons above given: These two Remedies being for the Cure of the Distemper in its *SECOND* Stage.

But if the Person's Case be still worse than hitherto described, & belongs to the *Third* Stage, then besides the Use of the Lotion & *Specifick Remedy*, they ought to take also the little Grain of *Blood-Cleansing Powder* abovementioned, which is on Purpose to take the Pocky Infection out of the Blood.

And again, if Persons, whose Case is only the *Second* Stage or Degree of the Disease, are desirous to be more certain in thoroughly Cleansing out of their Bodies the Infection of the Distemper, if, besides the *Lotion*, and *Specifick Remedy*, they use also this little Grain of *Blood Cleansing Powder* just now mentioned, their Cure would be still much more expeditious. And therefore for this Reason it is, that

Along with the *Lotion*, & *Specifick Remedy*, the said Grain of Powder has always been put up in one Parcel together at a Guinea Price, from the first successful Publication in London of this Great Venereal Specifick in the Year 1713.

Being a far Cheaper Cure thus for a Guinea, than by tedious Courses of Physick. — And To be had at the Places above in the Title-page. — Or will be *Privately Brought* by R. BRADSHAW, whose express Business is *Privately* to CARRY any of these Remedies, as above in the Fifth Page.

NOte. The POOR, (whose Circumstances will be regarded) are to apply Up One Pair of Stairs, at the *Anodyne Necklace* without TEMPLE-BAR.

AND as for Persons of either Sex harrass'd with
Any Recent, or Old GLEET, &c.

Altho they may have met with the most Unhappy Dis-
appointments from even the most Boasted Methods, the
surest and easiest thing after all to take their GLEET quite
away, is a Peculiar Strengthening Chymical *Lotion* called

The WEAKNESS LOTION,

Of Dr. Cockburn's Recommendation also in his Treatise
Of a *Gonorrhoea* abovementioned; and which Lotion Cures a
Gleet, after most other Means used to no Effect, & this with-
out any thing taken at the Mouth, or any Uneasiness.

This WEAKNESS *Lotion* is also Sealed up with its Di-
rections in *English & French*, Pr. 7 s. 6 d. at the Places above.

But where a GLEET or other Draining Weakness has been
of Long Date, & so may prove more obstinate in its Cure.

Or where any Relicks of a former *Veneral Infection* are
shrewdly suspected to lurk still in the Body, Then besides the
Use of this *Weakness Lotion*, the Person should take a peculiar

DIURETICK Cleanser and Strengthner of the
Urinary Parts, Reins, and Loins,

A Specifick DIURETICK *Elixir*, being a Medicine
to be depended on to Cleanse and bring away by
URINE from out of the Seminal & Urinary Vessels, &
from out of the Reins & Loins, any foul putrid Relicks of
any former *Veneral Infection*, which many times lurking a
long time in the Body, make a very fatal *Harbock* in it.

Now such Relicks are commonly known and discover-
able by a foul Urine, of a strong Smell, with Variety of, as
were, *Threads, Films, Skins* and *Hairs* flying about in it,
with a *Greasy* kind of *Scum* at the Top, and a Settling
at the Bottom, with a *Sharpness, Pain, Heat*, or *Stoppage* in the
taking it, and too frequent *Provocations* to it, and is often
accompanied with a Pain and Weakness in the Back, and
Loins, and a kind of Weariness over the whole Body, &c.

This Great DIURETICK Cleanser Cures these Disorders,
bringing away by Free URINE, not only any foul
Relicks lurking in the Body of any former *Veneral Infection*,
but also any *Slime*, or little gritty *Stones, Gravel, Sand*, or
other *Foulnesses* that obstruct and hinder a free making of Wa-
ter, it bringing the Urine FREELY Easily, and Plentifully
away, tho before the Person could only make it with
difficulty and by Drops, and with a singular efficacy strength-
ens & recovers the weakned Parts.

Which renders it a Medicine of such uncommon Benefit
to Mankind, as to restore again weakned, & spoiled Nature,
And beyond what the Person could ever expect. Being

Being the peculiar *Thing* to repair, recruit and restore *Nature* again, where either any *Dripping* or GLEET drains and wasts it, and to take such a *Gleet* QUITE AWAY :

Or where Persons have weakned & spoiled themselves by Self-Defilements, & unnaturally forced seminal *Emissions*, &c. this great Medicine is the proper *Restorer*, and Replenisher again of *Nature*, where it has been so squandered away.

As therefore in obstinate *Gleets* and other such Weaknesses in either Sex, this Elixir, along with the foregoing *Weakness* Lotion, are Both of Use for the WHOLE Cure :

Therefore, they are both put up in One Pocket Parcel together, with this Title pasted on the Parcel,

The Whole CURE together

For a GLEET,

Or other WEAKNESS in Either Sex,

With Directions in *English* and *French*,

Belonging to the PRACTICAL SCHEME.

Price A GUINEA.

They being so put up, for the Convenience of those who for severe *Gleets*, have the WHOLE Cure together

Or they may be had separate by themselves, viz. The Lotion at 7 s 6 d. Price, & the Elixir at 13 s 6 d.

Or both in One Parcel for a Guinea, as just now mentioned

And that Persons may inform themselves farther concerning their GLEET, At the *Anodyne* Necklace without Temple Bar, & at R. Braddshaw's as above in Page 5. is Given *Gratis* The GLEET DISPENSATORY, which is a Book calculated to inform all Persons, & to Resolve all their Doubts

Also at the same TWO Places is Given *Gratis* to any Customer that desires it, the Treatise Entituled *Eronania* on the grievous Consequences of Self-Defilement, in single Persons, Widdowers, or Married. Plainly shewing the Guilty How to get Rid of so vile a Habit, & the Unwary how they may never fall into it, with an Account of what Disasters attend it. And also of the Use, Abuse of, Frustrating and Defileing the Marriage-Bed.

And whereas the things in this Scheme have been lately Counterfeited by an Ignorant WOMAN who has endeavoured Villainously to persuade the Persons who sell themselves only True Remedies, underhand to take in HER Counterfeits, and Sell them for these: If SHE continues of these Tricks, more of this and her other Actions, &c. will be Printed at Large.

Of Another more Unhappy State proceeding from this Disease, different from it's THREE Stages or Degrees.

BESIDES the Three above mentioned Degrees of the Venereal Distemper, There is yet Another much more Unhappy State, in which a Great Part of Mankind unfortunately find themselves which is what is commonly called A BROKEN CONSTITUTION, or Spoiled Habit of Body, from Prejudices receiv'd from Former Cures by Salivations, and Mercurial Medicines:

The Reason of which has been, because after the Cure, the MERCURY ought to have been (but was not) well carried off, and so has lain Lurking in the Body, & has rivetted it self in the very Bones of the poor ruined Patient.

So that after the Cure is over, there frequently remains several pernicious Effects and Symptoms of the Disease, or else some Fatal Relicks of the Mercury (many times the worse Evil of the Two) all which are sufficiently known by unusual Pains in the Head, & about the Body, Weakness, & Tremblings in the Joints, Weariness and Numbness of the Limbs, Giddiness in the Head, Heat in the Palms of the Hands, Weakness in the Back, Reins & Loins, Lowness of the Spirits, &c.

With several other such Disorders, as too many daily experience, who thereby from Strong, Healthy Persons, too often become of *Infirm, Broken*, miserable weak Constitutions.

Now to Remedy these Evils, the usual Method is to put Persons under tedious Courses of *Physick*, with *Diet-Drinks*, &c.

And if no Other Means would do, these Courses of *Physick* must be undergone. But Another much more Easy Way is now found out to Carry off the Relicks of former Mercurial Medicines, & to Cure these Disorders, viz by a peculiar Elixir, instituted to supply in a much more Eminent Degree in a Few Drops, the Stead of (frequently to be repeated) nauseous Draughts of *Diet-Drinks*, or other Medicines.

By the Person's Taking only a few Drops of this Elixir, instead of long Diet Drinks, and Courses of Physick:

Now which of these Two Doses, viz. Either only a Few Drops of such a Compendious Elixir to be taken At Once:

Or to take large nauseous Draughts, of Diet-Drinks, will be most acceptable to Persons whose Condition requires of them either to take Physick, or be ruined, needs no great Foresight to determine. — So that *Utrum horum Maius accipere*.

Cephalick and Optthalmick TOBACCO.

WHICH by SMOAKING a Pipe or two
at the Times that Persons commonly
Smoak, wonderfully refreshes the Head and
Brain, Clears and preserves the Sight, Restores
it if decayed, and strengthens it if weak;

Insomuch, that by it Persons may never come
to use Spectacles, or come to leave them off.

Also in case of Deafness or Thickness of Hearing, or the
Tooth-ach, Head-ach, or Vapours, Or where any Rheum op-
presses the Lungs, Breast, or Stomach, causing Wheezings,
Difficulty of Breathing, & Shortness of Breath, this Sovereign
TOBACCO is of singular use to bring such Rheum away, and
to cause the Person to Expectorate easily, & Breathe freely.

It Smoaks delicately Soft, & Cool in the Mouth, & there-
fore is the best Tobacco for Beginners and Learners to Smoak,
it causing no Sickness, or Uneasiness, but on the contrary,
Smoaks Fine and Pleasant, & thereby passes away the Time
much more agreeably, than any Common Tobacco along with
any Liquor, when Persons are in Company together.

Of this TOBACCO the following Letter was sent.

Being lately in Town, I was for 10 or 12 Days Lame with the
GOUT, but being obliged to go Abroad, I happen'd in
Cheapside to be with a Gentleman that Smoked a very pleasant
TOBACCO, which he very much Recommended for the GOUT
& SORE EYES, with which I was then afflicted.

I bought of it at the Anodyne Necklace without Temple-
Bar, and by only Smoaking of it, am now as well as ever I have
been in my Life: Which I will testify to any Person, that will En-
quire for me at the Green Dragon in Bishopsgate street, where
I keep a Warehouse with Norwich Stuffs, Trading between Nor-
wich and London.
